The safety rules of the company where you work will be shared with you in advance. Read this carefully before you start. These may be placed under "My Documents", and you will need to sign them so that we know you have read them. We recommend that you wear class S3 safety boots while at work. If you don't own these S3 safety boots, GOODMORNING will provide them to you free of charge. If any other personal protective equipment is required by one of our clients, it will be provided to you by the client in question. We also strongly recommend that you always wear long trousers while at work. We expect you to be present 15 minutes in advance. Participation in the pension scheme is mandatory. GOODMORNING pays 2/3 part (8%) of the total premium withholding and you pay 1/3 part (4%) of the premium. This part is withheld from your wages. The pension scheme at StiPP is a defined contribution scheme. This means that you build up pension capital. This money is invested. The money invested and the investment result together form the pension capital. When you retire, the pension capital is converted into a lifelong pension benefit.

You can log in via DigD via the website <https://www.stippensioen.nl/#werkknemer> and have your personal data adjusted. When you reach the Dutch retirement age, it is important that your personal details are up to date so that StiPP can pay out your accrued pension.

7. What to do when you are ill?

If you are ill, please notify us the evening before or at least 1 hour before you are due to start work. To do so, call your intermediary or notify one of our Flex coordinators. If you are ill because you are pregnant or have been in an occupational accident, you must also notify us by phone. After calling in sick for the first time, please call us every next day before 18:00 to inform us of how your recovery is progressing. If you do not call in sick on time, your first day of absence will count as unpaid leave. Your second day of absence will then be your first sick day. The first day of illness is a waiting day. Please provide the following information:

8. Holidays

8.1 Public holidays

The conditions for qualifying for a paid holiday (Monday to Friday) under the collective labor agreement are:

- if the employee has worked at least seven times on the relevant day of the week in a period of thirteen consecutive weeks immediately preceding the relevant day.
- for new employees who have not yet worked thirteen consecutive weeks, but who have worked for more than half of the number of weeks with the employee on the day in question

8.2 Holiday procedure

You accrue statutory leave (holiday hours) on a weekly basis and you can see on your pay slip how many hours of statutory leave you have. If you are not available to work and you have not worked 38 hours, you must take statutory leave (holiday hours). You can request vacation time via the Plan4Flex APP under My absences.

The agreement remains that you must request a vacation at least 2 weeks in advance. Try to keep this in mind. If you would like to reserve your room, you must do so via the APP correspondence under message type Planning.

If you want to go on vacation for more than 4 weeks or return to your country of residence, discuss this with your intermediary. If you have not built-up sufficient holiday hours, you can request unpaid leave hours. If you are unable to work for a longer period, you must request dismissal.

You must report to the recruitment offices one week before you want to return from holiday. In consultation you will be placed where work is available. This may also be at another work location.

8.3 Annual leave

Any annual leave in excess of the statutory entitlement will be paid out per week.

9. Termination of employment

If you wish to terminate your employment, you must give notice well in advance. The notice period you must apply can vary from 7 to 28 calendar days in accordance with the ABU Collective Labor Agreement. If you have a contract with an obligation to work, we cannot always give you a longer period of time off. If you are unavailable for a longer period of time, you can resign after you have taken the holiday hours.

You can indicate via the APP correspondence that you wish to terminate your employment. An ODV document will then be prepared for you in the Plan4Flex APP. Here you can indicate on which date in the future you want to terminate the contract. After signing, we will communicate this internally.

10. Cars

10.1 Driving your own car in the Netherlands

If you come to the Netherlands from your home country in your own vehicle, you must report this to the recruitment office in advance. The various residential facilities of GOODMORNING Facility BV only have a limited number of parking spaces available. Parking in the residential areas surrounding these locations is not permitted. GOODMORNING wants to avoid any inconvenience to the immediate surroundings as much as possible, but you also run the risk of a parking fine and/or having your car towed. GOODMORNING shall not be liable for damages to vehicles parked on its premises or in the vicinity of its properties. In certain cases, you will have to pay road tax in the Netherlands and insure the car in the Netherlands. Furthermore, you may have to pay private motor vehicle and motorcycle tax. This is your own responsibility.

10.2 Transport Goodmorning

If you live in an accommodation form LPC Facility, we will also take care of your commute. What kind of transport is provided depends on the commute distance. Of course, you are not obliged to use the transport provided by GOODMORNING.

If the client does not have a travel expenses scheme, EUR 3 per day will be withheld for transport costs with a maximum of EUR 15 per week. Are you the driver of the car? Then you will not be charged any transport costs.

In the accommodation you can find the information for your transport schedule. For questions about this ask the Support Coordinator.

10.3 Driver Goodmorning

If you have indicated to one of our recruitment offices that you are in possession of a valid driving license and wish to use transport through GOODMORNING, you are considered a potential driver from that moment on.

After signing the contract, you will be responsible for the car you take delivery of. When you are assigned a car, other colleagues will often ride along with you. You will be asked to pick up any passengers from a single assembly point.

10.3.1 Fuel card

As a driver, you will be given a fuel card. With this fuel card, you can fill up a limited amount of fuel each week at an unmanned petrol station. Refueling along the motorway is therefore NOT possible. In each car, there are comprehensive instructions on how to use the fuel card.

10.3.2 Private use of allocated car

Any unexpected travel or detours due to work-related circumstances (e.g. roadworks, accidents etc.) should be reported to the Support coordinator on a weekly basis.

It is permitted to drive up to 9 kilometers per week in the allocated car for private purposes. For each additional kilometer driven above this limit, you will be charged EUR 0.50 per km, which will be withheld from your net salary. The distance travelled is monitored by a so-called black box, which is fitted in all cars as standard. The black box also allows us to monitor your driving behavior.

If you drive more than 9 kilometers per week we have to deducted tax (Bijtelling auto). You will pay tax on 25% of the purchase value of the car. We call this car addition. For example, on the pay slip you will see an amount of €71.85 in the 2nd column. You only pay tax on this amount. If you drive privately less than 9 km per week on average during the calendar year, the car addition will be corrected after the end of the calendar year.

10.4 Bicycles

These are provided free of charge for commuting.

11. Health Care

11.1 Health insurance

Everyone who works or lives in the Netherlands is required to have a health insurance. This also applies to you. Basic health insurance covers the costs of GP visits, specialist visits, prescribed medication and hospitalization. When you opt for the health insurance arranged by GOODMORNING, you are insured for death and repatriation (transport of the deceased to the home country).

You have three options:

1. Take out private health insurance and provide proof to us;
 2. Holland Zorg. The premium is € 35,59 per week in 2024, and you will have no excess;
 3. Zorg en Zekerheid. The premium in 2024 is € 35,53 per week, and you will have no excess.
- The premium will be deducted from your net salary every week. This premium also covers the (statutory) excess.

GOODMORNING will take care of signing you up and out for healthcare insurance and will take care of payments.

In the Netherlands, you are obliged to be insured for healthcare as soon as you have a so-called 'wage component', which means that the health insurance premium will not only be deducted if you actually live and work in the Netherlands, but also when you are on holiday and receive paid leave and/or holiday pay.

11.2 Healthcare benefit

Healthcare allowance is compensation for healthcare costs if you do not have a high income. The conditions and amount of healthcare allowance are determined annually by the government. You can apply for healthcare allowance via Goodmorning applications. Through the APP correspondence you can receive information about the conditions and request an authorization in which we will apply for the Healthcare Allowance for you.

11.3 General practitioner care in the Netherlands

14. Confidential person

Goodmorning has a confidential counselor "Safety Net" with 2 people appointed as confidential counselor. This gives the employee a choice of who he or she can contact. This can be done by email: vertrouwenscommissie@goodmorning.eu

The confidential counselor acts as a sounding board for employees and provides them with support and advice. The confidential counselor is there to help resolve complaints and offers a listening ear. She also advises whether or not the complaint should be filed or whether a discussion should take place with the perpetrator to resolve the problem.
